CAMPAIGN STRATEGY

I will create a complete FB Ad Campaign I recommend to create three ads per service that you offer. Two shorter ads and one long form. Through these ads we will drive prospective clients to your website for leads and conversions. If you are not happy with the results generated from your website, I recommend creating a dedicated long form landing page the limits the options of your client's ability to bounce. I can handle all the copy for your page if you decided to take this route. Finally, I recommend you create some sort of free offer that you can provide to your clients for them to give you their email so you can continue to follow up with them through a drip campaign.

ADDITIONAL SERVICE

If you are interested in additional sales copy services, I can create you a video sales presentations that will drive your prospective clients to a call to action. Format will be similar to this example which converted at 46% with cold Facebook Traffic.
